<b>Winemaking</b>	Harvesting of the grapes is made manual, at fenoly maturation when they have accumulated in the peel grape large quantity of anthocyanins. The grapes are transported to the winery in containers which assure them antioxidant protection. Then is made quantitative and qualitative reception followed by maceration-fermentation on marc. While is fermenting, regularly is made an immersion of the peel into the must, to ensure color and aroma extraction. Alcoholic fermentation is followed by malolactic fermentation, which confere suppleness, softness and wine roundness. Conditioning and treatment has been limited to minimum, for not losing something that God put into the grapes.
